LGBTQ+ Cancer Symposium

June 2-3, 2022

Sofitel Los Angeles at Beverly Hills

Thursday, June 2, 2022

Full-day meeting and special event
at The Abbey

Friday, June 3, 2022

Half-day meeting and departure

This symposium is the first of its kind to center the science and voices of LGBTQ+ people on cancer care, community engagement and policies that influence health disparities. We recognize that by examining the intersection of sexual orientation, gender and cancer, we can better prevent, detect and cure cancer.
