# ACTIVITY INFORMATION

## COURSE DESCRIPTION AND STATEMENT OF NEED

The 19th Annual Emergency Medicine Symposium: A Practical Update is a cutting-edge course that will provide participants with the latest clinical information to support the delivery of fast and accurate diagnoses and treatment decisions. Expert faculty will share their broad knowledge and clinical expertise, energy, and commitment to emergency medicine. This one-day activity will cover current and emerging trends in the emergency department (ED) and will include content on modern resuscitation, in addition to discussing the most up-to-date therapeutic and vaccine recommendations as of December 2021. We will discuss best practice for diagnosis and treatment of high-risk pulmonary embolism, the evolving role of psychotropics in emergency medicine, how to interpret must-know EKGs, when to suspect and how to treat pulmonary hypertension, hot topics in trauma, and—importantly—how we attain happiness in our practice of medicine and our lives.

## ACCREDITATION STATEMENT

Cedars-Sinai Medical Center is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

## CREDIT DESIGNATION STATEMENT

Cedars-Sinai Medical Center designates this Live Activity for a maximum of 7.50 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## NON-PHYSICIAN ATTENDANCE

A certificate of participation will be provided to other health care professionals requesting credits. Participants should ensure in advance that their credentialing or licensing organization accepts AMA PRA Category 1 Credits™.

4:00-4:40	Questions and Answers/Closing Remarks	

## IN-PERSON EVENT HEALTH AND SAFETY

As you know, the health and safety of our community are always our top priorities at Cedars-Sinai. We continue to monitor US Centers for Disease Control and Prevention (CDC) and Los Angeles County guidelines for mass gatherings and will make updates accordingly. Participants in any event should be thoughtful about their individual risks and consider avoiding public gatherings if they are of higher risk.
