CEDARS-SINAI®

EERIE ENT CASES

The “Eerie ENT Cases” conference offers participants a unique one-day learning experience that momentarily sets aside perfection in favor of openly discussing adverse outcomes and near misses in otolaryngology. Within a supportive learning environment, expert faculty will guide you through the exploration of some of the scariest ENT cases, and will participate on panels for in-depth discussion. In addition, there will be presentations of scary cases that highlight the key aspects of medical decision-making, pointing out how patients were or could have been put in jeopardy by decisions made, and how management of otolaryngology cases can be fraught with pitfalls that include accusations of malpractice.

The conference will include a contest for scariest case photo and/or video, and participants are highly encouraged to join by submitting a scary picture/video to narine.vardanyan@cshs.org by Friday, October 26.

As a reminder, all submissions must comply with HIPPA requirements. The conference will close with an award ceremony for the scariest photo and scariest video. This is the first of its kind on the West Coast, so don't miss it!

ACCREDITATION STATEMENT

Cedars-Sinai Medical Center is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.
