ACTIVITY INFORMATION

COURSE DESCRIPTION AND STATEMENT OF NEED

The 2020 Orthopaedic Trauma symposium will present the latest operative and non-operative techniques and strategies used in the care of patients with complex upper- and lower-extremity injuries. Morning sessions will address fractures of the elbow and proximal humerus. Afternoon sessions will focus on trauma injuries to hip and knee. Each session will offer attendees ample time for questions and discussion. A unique feature of this year's program is a lunch-and-learn performance improvement session with content highlighting models for skill development, "Kelee meditation" and visualization techniques. The program will close with a final session featuring practical case-based discussions and best practices.

ACCREDITATION STATEMENT

Cedars-Sinai Medical Center is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

CREDIT DESIGNATION STATEMENT

Cedars-Sinai Medical Center designates this live activity for a maximum of 8.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
